Nothing is wrong with that as long as the price reflects this and you have not been overcharged. A good tailor will always listen to your requirements and then advise you of what will work best. Confused about which tailor shop to go to buy nice custom made clothes here in Thailand? Well, look no further. Chances are good you'll end up paying much more than what you wanted to and having to settle for inferior quality. In countries with different climates you can go heavier or lighter. What types of fabric do they offer? The first thing to do when you meet your tailor is choose a fabric. Bear in mind that proper tailoring does require time and patience to ensure desirable results.
