It pays to do your homework before making your first appointment with a tailor.

The content of this site is based upon my personal opinion.

For those of you who work in grams, a simple conversion guide is 30grams = 1oz.

All weights are woven in different qualities.

I am also being sponsored by people like you to help me develop my site and add more good tailors in it.

Ask to see some examples of their work.

How many fittings should you expect to have? If they make the suit straight through (i.e.
