Is it best to have a hand-made suit? There is no easy answer as to which is best.

I have individually hand-picked each one of them as I am aware of the prices and quality of their products.

A good tailor will always listen to your requirements and then advise you of what will work best.

Nothing is wrong with that as long as the price reflects this and you have not been overcharged.

Chances are good you'll end up paying much more than what you wanted to and having to settle for inferior quality.

Bear in mind that proper tailoring does require time and patience to ensure desirable results.

What types of fabric do they offer? The first thing to do when you meet your tailor is choose a fabric.
