The number of fittings does not correlate to the quality or fit of the finished garment.

For those of you who work in grams, a simple conversion guide is 30grams = 1oz.

The content of this site is based upon my personal opinion.

Don't fall for cheap packages or special deals advertised in glossy brochures advertising a suit, a pair of trousers and two shirts for, say, US\$ 95.

It pays to do your homework before making your first appointment with a tailor.

measure you and then the next time you meet the suit is ready), it probably is factory made.

All weights are woven in different qualities.

I am also being sponsored by people like you to help me develop my site and add more good tailors in it.
